# **PEDIATRICS & NEONATOLOGY SUMMIT**

**December 02-04, 2020**

**Venue**

**Boston, MA**

**Exhibitor**

08:00-08:30 **Registrations and Introductions**

### Keynote Presentations

08:30-09:10 **The global burden of vaccine preventable diseases in children less than 5 years of age**  
Lawrence Frenkel, University of Illinois, IL

09:10-09:50 **Child abuse and child mental illness**  
Yvonne M. Vissing, United Nations Convention on the Rights of the Child, Salem State University, MA

09:50-10:30 **Beyond BFHI-The Spatz 10 step and BRN models to improve human milk & breastfeeding**  
Diane Spatz, University of Pennsylvania School of Nursing, PA

10:30-10:50 **Coffee Break**

10:50-11:30 **The importance of early identification of developmental coordination disorder**  
Sharon Cermak, University of Southern California, CA

11:30-12:10 **Applications of humanistic story-telling to medical education: a case study in the design and use of a cross-media analysis**  
Robert L. Selman, Harvard University, MA

12:10-12:50 **Complications and controversies associated with the current sequential pharmacological therapy of hypotension in extremely premature neonates: effects of maternal factors**  
Rita P. Verma, Icahn School of Medicine at Mount Sinai, NY

12:50-13:50 **Lunch Break**

13:50-14:30 **Is it time to reconsider palivizumab (synagis) prophylaxis for premature infants?**  
Ram Yogev, Northwestern University Chicago, IL

14:30-15:10 **Understanding malevolent and promoting benevolent mindfulness (exploring the underpinnings of healthy and pathologic psychosocial development)**  
Gerald Katzman, Wayne State University School of Medicine, MI

### Featured Presentations

15:10-15:30 **Simulation as a tool for teaching obstetricians neonatal resuscitation**  
Christie J. Bruno, Yale School of Medicine, CT

15:30-15:50 **Human milk in the NICU: Still the best!**  
Richard J. Schanler, Cohen Children's/Northwell Health/Zucker School of Medicine at Hofstra/Northwell, NY

15:50-16:10 **Coffee Break**

16:10-16:30 **Symptoms unique to ACE in an inpatient population**  
Margaret Danielle Weiss, Cambridge Health Alliance, MA

16:30-16:50 **Slot Available**

16:50-17:30

Posters and Networking

- P-01**      **Evaluation of balance in children diagnosed with idiopathic toe walking**  
Gwerder Michelle, Chapman University, CA
- P-02**      **Neurodevelopmental and sinopulmonary dysfunction due to congenital torch infection**  
J Seth Psomiadis, St. George's University School of Medicine, Grenada
- P-03**      **Obesity epidemic among Japanese primary school student -physical activity and daily habit**  
Yumiko Nakamura, Bunkyo Gakuin University, Japan
- P-04**      **Simulation design of pediatric clinical situations for nursing education**  
Chisato Eto, Bunkyo Gakuin University, Japan
- P-05**      **Evaluation of balance in children diagnosed with idiopathic toe walking**  
Marybeth Grant-Beuttler, Chapman University, CA
- P-06**      **Prevalence and potential outcomes of e-cigarette use in asthmatic adolescents: A systematic review**  
Daevina Charles, St. George's University School of Medicine, Grenada
- P-07**      **Provider education and screening of the female athlete triad in the adolescent population**  
Emily Moe, University of Missouri - Kansas City, MO
- P-08**      **Case report – misdiagnosis of myositis as rhabdomyosarcoma**  
Sarah Afzal, McMaster University, Canada
- P-09**      **The clinical impact of high flow oxygen therapy for ex-preterm infants with bronchiolitis**  
Margarita Delgado Thompson, University Hospital of Wales, United Kingdom

Best Poster Presentation Announcement

**Session I: Neonatology and Perinatology****Chair:** **Lawrence Frenkel**, Senior Section, NJ/AAP, Professor, Department of Pediatrics, University of Illinois, IL

- 08:30-08:50 Anesthesia and very young brain: why is FDA concerned?**  
*Vesna Jevtovic-Todorovic*, University of Colorado School of Medicine, CO
- 08:50-09:10 The new emerging role for pediatricians in the arena of global newborn health**  
*Indira Narayanan*, Global Maternal and Newborn, Health and Nutrition, Washington, D.C.
- 09:10-09:30 Immigrant mothers and their perceptions of transitioning from the NICU to home**  
*Elisabeth C. McGowan*, Alpert Medical School of Brown University, RI
- 09:30-09:50 Birth weight prediction during emergent delivery room resuscitation: visual estimate vs. ultrasound estimated fetal weight percentile on the modified fenton curve**  
*Sara D. Gungor*, Stony Brook Children's, NY
- 09:50-10:10 Pharyngo-esophageal complication of ryle tube insertion in neonates: management and fate**  
*Ahmed Mohamed Refaat*, Ain-Shams University, Egypt

**10:10-10:30 Coffee Break****10:30-10:50 Aluminum in pregnancy, infancy, childhood and young adulthood**  
*James Lyons-Weiler*, Institute for Pure and Applied Knowledge, PA**10:50-11:10 Slot Available****Session II: Child Abuse and Mental Health****Chair:** **Gerald Katzman**, Clinical Associate Professor, Wayne State University School of Medicine, MI

- 11:10-11:30 Embedded relational mindfulness (ERM)© in child and adolescent treatment: a sensorimotor psychotherapy perspective**  
*Bonnie Mark Goldstein*, Lifespan Psychological Center, CA
- 11:30-11:50 Munchausen by proxy (medical child abuse): child protection, parents' rights, and asymmetric warfare in the court of public opinion**  
*Gordon Harper*, Harvard University, MA
- 11:50-12:10 Snapchat and child sexual abuse in sport: protecting child athletes in the social media age**  
*Jimmy Sanderson*, Texas Tech University, TX
- 12:10-12:30 Stuck in the middle with you: risks of harm for children and pets in domestically violent homes**  
*Andrew M. Campbell*, Campbell Research & Consulting, IN

**12:30-13:20 Lunch Break****13:20-13:40 Ongoing child welfare service provision: what clinical and worker characteristics predict service for families with young children**  
*Kristen Lwin*, University of Windsor, Canada**13:40-14:00 Slot Available****14:00-14:20 Slot Available**

### Session III: Common Heart Conditions in Children

**Chair:** **Howard S. Weber**, Professor of Pediatrics, Director of Interventional Pediatric Cardiology, Penn State Hershey Childrens Hospital, PA

#### Keynote Presentation

**14:20-15:00** **Interventional pediatric cardiac catheterization in 2020 (current and future technology)**  
**Howard S. Weber**, Penn State Hershey Childrens Hospital, PA

#### Featured presentation

**15:00-15:20** **Lessons learned from the cardiovascular health intervention program in elementary school children**  
**Paul S. Visich**, University of New England, ME

**15:20-15:40** **Functional echocardiography training in the neonatal intensive care unit: comparing the measurements and results with the paediatric cardiologist**  
**Marina M Zamith**, UNIFESP\_Federal University of Sao Paulo, Brazil

**15:40-16:00** **The “Blue Baby”**  
**Sushitha Surendran**, University of Tennessee Health Science Center, TN

---

#### 16:00-16:20 Coffee Break

---

**16:20-16:40** **Development and cross-national validation of a revised version of the berkeley parenting self-efficacy scale: parenting self-efficacy as a resource factor to empower parents and young children**  
**Ayumi Nagase**, Sonoma State University, CA

### Session IV: Diagnosis and Treatment of Pediatrics Diseases

**Chairs:** **Shridevi Pandya Shah**, Assistant Professor, Department of Anesthesiology, Rutgers New Jersey Medical School, NJ  
**Ram Yogev**, Professor Emeritus, Lurie Children’s Hospital of Chicago, Feinberg School of Medicine, Northwestern University Chicago, IL

**16:40-17:00** **Brain vascular patterning in vertebrates**  
**Ramani Ramchandran**, Medical College of Wisconsin, WI

**17:00-17:20** **Pathogenesis of microcephaly from congenital intrauterine infections**  
**Fernando Gomez**, Rocky Vista University, CO

**Session IV: Diagnosis and Treatment of Pediatrics Diseases**

**Chairs:** **Shridevi Pandya Shah**, Assistant Professor, Department of Anesthesiology, Rutgers New Jersey Medical School, NJ  
**Ram Yogev**, Professor Emeritus, Lurie Children's Hospital of Chicago, Feinberg School of Medicine, Northwestern University Chicago, IL

- 08:30-08:50** **Variables which influence a parent's treatment selection for their children with autism**  
**Kimberly Frame**, Savannah State University, GA
- 08:50-09:10** **Reflux in infants and children in 21st century: do we know enough, too much?**  
**Thomas Ciecierrega**, Weill Cornell Medicine, NY
- 09:10-09:30** **The pediatrician's role in the evaluation and preparation of pediatric patients undergoing anesthesia**  
**Shridevi Pandya Shah**, Rutgers New Jersey Medical School, NJ
- 09:30-09:50** **Pancytopenia: symptoms, causes and genetic testing**  
**Bonnie W. Lau**, Geisel School of Medicine at Dartmouth College and The Norris Cotton Cancer Center, NH

---

**09:50-10:10** **Coffee Break**

---

- 10:10-10:30** **Cystic fibrosis diagnosed by newborn screening: follow up**  
**Silvia Gartner**, Hospital Universitari Vall d'Hebron, Spain

**Special Lectures**

- 10:30-10:50** **Planetary pediatrics: an introduction**  
**Sue Bennett**, Children's Hospital of Eastern Ontario, Canada
- 10:50-11:10** **Digital citizenship and media literacy in early childhood**  
**Alexis R. Lauricella**, Erikson Institute, IL
- 11:10-11:30** **Use of paracetamol for closure of patent ductus arteriosus in newborns less than 35 weeks of gestational age**  
**Eduardo Gálvez Cuitiva**, Universidad Nacional de Colombia, Colombia

**Slots Available**

---

**Lunch & Networking**

---

## Veinlite Transilluminators

TransLite LLC is the manufacturer of Veinlite Transilluminators – vein access tools that have been clinically proven to improve vein access. Our patented technology is trusted by over 50,000 healthcare professionals in over 100 countries to increase first-stick success rates from 73% to 93%. It can be difficult to access veins due to patient's skin color, age (elderly or pediatric), or size of the patient. Veinlite is the answer to these challenges by detecting suitable veins for cannulation, anchoring the vein in place to prevent rolling, adding traction to the skin for easy needle insertion, and acting as a local tourniquet to raise the vein. Our Veinlite product line provides a solution for difficult vein access in any patient demographic. If you need to access a vein, you need Veinlite. For more information on the revolutionary Veinlites please visit [www.veinlite.com](http://www.veinlite.com)

*We wish to see you
